IUST Hosts Alumni Engagement Programme

Awantipora, April 13: Under the Alumni Connect initiative, the Department of Mathematical Sciences at Islamic University of Science and Technology organized an alumni engagement program on the theme “*Research Methodology in Statistics & Mathematics.*” The session was conducted by department alumnus Dr. Aamir Ahmad Dar, currently serving as a faculty member at Lovely Professional University.

During the session, Dr. Dar shared valuable insights into research methodology, while also highlighting potential avenues for academic collaboration. He emphasized its role in providing a structured and systematic approach to solving real-life problems in Mathematics and Statistics. He further highlighted the interdisciplinary applications of these fields, particularly in healthcare and data science, inspiring participants to explore innovative research directions.

On this occasion, Dr. Peer Bilal Ahmad, Head Department Ahmad emphasized the importance of alumni engagement in enriching the academic environment and providing students with exposure to real-world applications and global research opportunities.
