Ms. Haiqa Koul (Batch 2017)

INTERNSHIP AT HYDRAULICS LAB, IIT KANPUR (2019)

We were introduced to research work by doing PIV experiments. The main aim of the research work was to understand the velocity profile of open channel flow.

We learned about how water flow behaves as the parameters affecting are varied and the flow behaviour in open channels graphically.

Islamic University of Science and Technology Awantipora student Barjees Ahmad Bhat from Civil Engineering Department 3rd Semester has shined in All India Inter-University Pencak Silat Championship-2018-19 by winning bronze medal.

The Vice-Chancellor Prof. Mushtaq Ahmad Siddiqi and Registrar Syed Reyaz Rufai congratulated and felicitated the medal winner and congratulated Directorate of Physical Education & Sports for their efforts in sending the team for the competition.

AWANTIPORA- The Islamic University of Science and Technology (IUST) students have brought laurels to the University by winning two gold medals at the National Thang Ta Martial Art Championship held recently at Jammu.

Gold medallists Mujtahid Mushtaq and Ahtisham Baba and varsity's rugby player Mohd Azim who represented the JKUT at the Senior Rugby National Championship held at Bhubaneswar, Odisha, were felicitated by the Vice Chancellor IUST Prof. Shakil A. Romshoo during a special ceremony held at the campus.

Start-ups:

Design Castle- a design and architectural company co-founded, Sheikh Mutahar Aijaz, a 2018 pass out student from the Civil Engineering Department IUST, Awantipora. Founded in the year 2020 by two co-founders, **Sheikh Mutahar Ajaz** and **Burhan Bilal Shera**. Design Castle is committed to developing futuristic, technologically advanced and sound and organic designs that embody the theory of minimalism and a fundamental affinity for nature.

Projects undertook

Design Castle's project encompasses private and municipal buildings, town halls, shopping complexes, smart and large scale housings, and various infrastructures like R-walls, water tanks, and industrial sheds. These projects are primarily located in J&K, while at the same time, we have our footprints in other states like Karnataka, Hyderabad, Orrisa, Nagaland and Ladakh

Sometimes young students leave a lasting impression. Abdul Waris (to my left) from Srinagar came for one month internship and I was amazed with his passion and dedication to learn. He learned many new things and mapped land slide zones for Jammu- Srinagar (NH44) highway. Abdul has a great potential to make an impact in coming years!
