

## **Vision:**

- To emerge as the Centre of research and documentation for the west Himalayan region by attracting scholars and students to study and contribute to the studies & research on geographical, sociological, cultural, linguistic, anthropological, tribal and ecological aspects and promote a better understanding of this geo-strategically important region.
- The Rinchen Shah Center aspires to create a comprehensive data repository of all the regions within the ambit of the western Himalaya by offering academic and research courses relevant to the socio-cultural landscape, in sync with NEP - 2020.
