About the Department: -
Department of Management Studies, School of Business Studies was established as one of the three founding Schools at Islamic University of Science & Technology in 2006. The core objective of this Department is to foster a better business world by grooming professionals who are able to make a positive difference to the organizations they work for. The Department offers bachelors, masters and doctoral programs in business management.

About the Conference: -
World Commission on Environment and Development states sustainable development as "Development that meets the needs of the present without compromising the ability of future generations to meet their own needs." Sustainable development promotes the idea that social, environmental, and economic progress are all attainable within the limits of our earth's natural resources. Technological innovation is considered as being one of the major driving forces in fostering sustainable development. Responding to the call the international Initiative on Science and Technology for Sustainability was founded in 2001.

Department of Management Studies, Islamic University of Science and Technology is organizing an "**International Conference on Sustainable Development and Technological Innovation**" on March **22-23, 2022 at Islamic University and Science and Technology Awantipora**.
