Innovation Day: The Theme was empowering change through Innovation

The CIED-IUST Foundation was observed Innovation Day, with the theme "Empowering Change Through Innovation." During the event, Prof. Parvez A. Mir, the Director of CIED-IUST Foundation (Centre for Innovation, Entrepreneurship, and Development), engaged in an insightful interaction with scholars regarding the significance of innovation in today's digital world.

In his address, Prof. Mir emphasized how innovation drives transformation in various sectors, especially in the digital age. He highlighted that in an era characterized by rapid technological advancements, the role of innovation is crucial in shaping the future and empowering individuals and organizations to adapt to ever-evolving challenges. The Director also discussed how digital platforms and tools enable new ideas to flourish, providing opportunities for growth, development, and success across industries.

Prof. Mir's conversation with the scholars underlined the importance of creativity, technology, and problem-solving as essential components of the innovation process. His insights resonated with the audience, motivating them to embrace innovation as a means of creating positive change and making impactful contributions to the digital world.
