## 'Educational tour for the students of the SRJ Govt. Higher Secondary School'

**Date:** 19-12-2024

**Target Audience:** Students of SRJ Govt. Higher Secondary School, Khanabal, Anantnag

### Discription:

The Department of Electronics and Communication Engineering, Islamic University of Science and Technology, Awantipora organized an educational tour for the students of the of SRJ Govt. Higher Secondary School, Khanabal, Anantnag. The students visited the Antenna Lab and Analog Electronics Lab of Electronics and Communication Engineering Department and observed state-of-the-art equipment used for circuit design, testing, and antenna development. This visit aims to provide insights into the technical capabilities in modern communication and aimed to highlight the practical contributions obtained in the fields of electronics and telecommunications. The visit underscored the commitment of IUST to fostering innovation and equipping students with the skills necessary to excel in technology-driven career. The students also visited the Biodiversity Museum, under The Mantaqui Centre for Science and society and were briefed by Dr Aijaz Qureshi how to combine research and education in natural science with the insight of social sciences and humanities in order to utilize fresh perspectives on major public issues and challenges involving science and technology through an inter disciplinary and multidisciplinary approach.
