

One-Day Workshop on Cake and Sweets Making Skills Conducted by SCDC, CIED–IUST Foundation

18-06-2025: The Skill and Capacity Development Cell (SCDC), CIED–IUST Foundation, in association with the Department of Food Technology, IUST, successfully organized a One-Day Workshop on Cake and Sweets Making.

The workshop was inaugurated by Dr. Darakshan Majid, Coordinator SCDC and Assistant Professor, Department of Food Technology. The primary objective of the event was to equip participants with foundational skills in cake and sweets processing, preparation techniques and cake design, empowering them to explore potential opportunities within the baking industry.

Dr. Darakshan Majid, a subject expert in Food Technology, conducted live demonstrations covering the complete bakery cake preparation process, from selecting raw ingredients to achieving the final product. The sessions emphasized promoting food-based entrepreneurship and encouraging value addition in cake and sweet products.

This initiative is part of a broader series of capacity-building programs planned by the SCDC. These workshops aim to serve as vital platforms for empowering students, aspiring entrepreneurs and local stakeholders with practical, industry-relevant skills contributing to sustainable livelihood development and fostering innovation in the agribusiness sector.
