Creative Minds International School, Litter Pulwama Visits CIED–IUST Foundation for Exposure Visit

23-04-2026: Creative Minds International School, Litter Pulwama organized an educational exposure visit for its students to CIED–IUST Foundation at the IUST Innovation Campus. The visit was aimed at providing students with practical insights into innovation, entrepreneurship and emerging technologies beyond the traditional classroom environment.

During the visit, students were given an opportunity to explore the incubation facilities and interact with professionals actively engaged in startup development and research. The CIED–IUST team introduced the students to the fundamentals of entrepreneurship, design thinking and the process of transforming innovative ideas into viable business models.

A series of demonstrations and interactive sessions enabled the students to understand the critical role of innovation in addressing real-world challenges. The exposure helped bridge the gap between theoretical learning and practical application, inspiring students to think creatively and analytically.

As part of the experiential learning program, the students toured several state-of-the-art facilities at the Innovation Campus, including the iFactory Lab, Design & Development (D&D) Lab, Training & Development Lab and UltraTech Cement Lab. They actively participated in hands-on sessions involving advanced technologies such as 3D printing, 3D scanning, PCB prototyping, CNC machining and laser cutting, gaining firsthand experience of modern tools and techniques.

The school authorities expressed their sincere gratitude to CIED–IUST Foundation for facilitating the visit and providing a highly enriching learning experience.
