

Department of Mathematical Sciences Organizes Interactive Session with Prof. Shalabh, IIT Kanpur

The Department of Mathematical Sciences, Islamic University of Science and Technology (IUST), Kashmir, organised an interactive session with **Prof. Shalabh**, Department of Statistics and Data Sciences, Indian Institute of Technology (IIT) Kanpur on 30th September 2026. The session was organised to provide students with an opportunity to interact with an eminent academician and gain insights into the emerging trends, applications, and career opportunities in Statistics, Data Science, and Mathematical Sciences. The programme was attended by students of M.Sc. Statistics, FYUGP Data Sciences, and FYUGP Mathematical Sciences. The interactive nature of the session encouraged students to engage in discussions and seek guidance on academic pursuits, research opportunities, higher studies, and the application of statistical and mathematical techniques in contemporary fields. Prof. Shalabh shared his valuable academic and research experience with the students and highlighted the growing importance of statistical thinking, data analysis, and mathematical modelling in various domains. He also emphasised the need for students to develop strong analytical, computational, and problem-solving skills to meet the evolving requirements of academia, industry, and research. The Department expressed its gratitude to Prof. Shalabh for his valuable time and engaging interaction with the students. The programme concluded with a vote of thanks.
